Portfolio

PROFESSIONAL SUMMARY

Aspiring Software Engineer with knowledge of Full Stack Web Development and Machine Learning. Built web applications and AI projects through internships and academic projects. Interested in solving real-world problems and learning new technologies.

EXPERIENCE

Edunet Foundation (AICTE)

AI & Machine Learning Intern

[GitHub](#) | [Live](#)

Dec 2025 – Jan 2026

Remote

- Built a Fake News Detection system using Python, TF-IDF, and Logistic Regression. Trained the model on more than 20,000 news articles and achieved 92.5% accuracy.
- Cleaned and processed text using NLTK, improved prediction speed, and deployed the project as a Streamlit web application.

SRM University AP

Full Stack Web Developer Research Intern

[GitHub](#)

Jun 2025 – Aug 2025

Remote

- Built a full-stack service booking website called TrustyHands. Added user login, role-based access (Customer and Worker), and stored data using MySQL.
- Designed a responsive user interface and improved database queries for faster performance.

PROJECTS

TrustyHands Service Booking Platform

MERN Stack (MongoDB, Express.js, React.js, Node.js) | [GitHub](#) | [Live](#)

Feb 2026 - Apr 2026

- Developed a full-stack MERN application connecting customers with verified service providers, featuring role-based dashboards, authentication, and booking management system.
- Implemented real-time features including smart search, geolocation-based address fetching, feedback system, and deployed using Vercel for scalable access.

Customer Segmentation Using K-Means

Python, Scikit-learn, PCA, Streamlit | [GitHub](#) | [Live](#)

Dec 2025

- Developed a customer segmentation model using the K-Means clustering algorithm on a dataset of 20,000+ customer records to identify distinct customer groups based on purchasing behavior.
- Applied data preprocessing, feature scaling, and Principal Component Analysis (PCA) for dimensionality reduction and visualized customer segments through an interactive Streamlit dashboard.

EDUCATION

SRM University, Amaravati

B.Tech in Computer Science Engineering

Aug 2023 – May 2027

CGPA: 9.42/10 (Upto 6 Semesters)

Sri Chaitanya Junior College, Guntur

Board of Intermediate Education, Andhra Pradesh

Jun 2021 – Mar 2023

968/1000 (96.8%)

SKILLS

Languages: C, C++, Python

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code

Deployment: Streamlit, Vercel, Render

CERTIFICATES

MongoDB Certified Associate Developer – MongoDB, Inc.

AI & Machine Learning Internship – Edunet Foundation
